Statement regarding Madonna Care Community

We were devastated to learn that a personal support worker at the Madonna Care Community (Orleans, ON) passed away yesterday. They were a beloved member of our team and a caring and dedicated care provider to our residents.

The team member had been hospitalized since April 18 after contracting COVID-19. While we were all hopeful the team member would make a full recovery, they unfortunately passed away from complications while in hospital.

The team member leaves behind a loving family, to whom we have offered our full support and deep condolences. They will be missed by the many individuals who worked with them.
