### **Statement regarding outbreak status**

Thanks to the incredible hard work of our team members, our public health partners, and government, we have made strong progress in implementing measures to address the challenges that COVID-19 has presented across the long-term care sector and at certain Sienna residences.

We are pleased to announce that as of August 11, **all of our residences are officially out of outbreak status**, with zero positive cases.

Pandemic plans, infection control, and outbreak management policies and protocols will remain in place as part of our normal operations.

It has been a challenging journey to get to this point and our thoughts continue to be with those whose lives were forever changed as a result of this pandemic. We care deeply about our residents and team members and our sole focus is on ensuring their safety and wellbeing during this time.
