Statement: Altamont Care Community welcomes federal military assistance arrival

Altamont Care Community is very pleased to have the assistance of federal military healthcare personnel to work alongside them to provide the care and services residents need.

A team of healthcare workers are now on-site providing this much needed assistance to the highly skilled Altamont team.

We want to thank the federal government for offering these valuable resources, and thank Premier Ford and the Government of Ontario for their strong leadership and support for long term care, which is at the centre of the pandemic in Ontario. The additional resources will be helpful as we strive to care for and protect residents during this crisis.

Our team and healthcare partners are making extraordinary efforts to fight this virus and are confident that we will overcome this challenge by working together.
